

MOBILE BANKING: SUPPORTED DEVICES

Devices not listed/no longer listed may function; however, they are not explicitly supported. Some devices not explicitly tested or listed as supported may still function as intended with the mobile banking apps, however, there is no guarantee that they will.

Minimum Device Operating System Support

- Minimum Android Version Supported - Android 11.0
- Minimum iOS Versions Supported – iOS 16*, iPadOS 16*

To ensure the highest levels of security, devices that are not eligible for upgrade to at least the minimum supported OS version are prevented from installing and/or using the mobile banking app.

Only devices running an unmodified version of the manufacturer-supplied operating system are supported.

* Apple devices that support a maximum operating system version of iOS 15/iPadOS 15 will continue to be able to download apps from the app store as long as Apple continues to release security patches for those versions. Any defects that are exclusive to iOS 15, iPadOS 15 OS and/or devices that only support OS versions below iOS 16 will not be addressed.
